MX2	Model： MX2 Pneumatic round bottle label machine Labeling precision less than ±0.5mm Efficiency 25-50 piece/minutes The size of work-piece 15-120 mm in diameter Label width 20-150 mm Label length 20-350 mm Program control PLC Checking method： fibre amplifier Power supply 220 V 50 HZ or 110V*60HZ The motor power 120 w machine size 850 x 380 x 640 mm weight 55KG			Suitable for different size of adhesive label or adhesive film on all kinds of round bottle,High accuracy and high speed,dispensing & labeling automatically. Suitable range: Round bottle, Round tank, Round barrel to self-adhesive labeling. It is used in PET bottle, plastic bottle, glass bottle, Metal bottle and so on round bottle etc. Mechanical principle: the PLC program control machine to start or stop, easy to operate under the pressure of the cylinder handle device ,adopt imported brand Otto Nicks fiber amplifier detection label stop signal, higher labeling precision. Universal object detection sensor. Ensure that the identification of 100%.1, Small structure takes up less space and easy to move and load. 2, Good labeling precision and stability; Neat, no wrinkle, no bubble. 3,It has powerful function. It can achieve circumferential position labeling and non-position labeling easily. 4,It satisfy the circumferential position labeling and non-position labeling on diameter between 15-120mm bottles. 5. It is easy to use and adjust. The new
